

DECKSHIELD

Colourful deck coating solutions designed to provide slip-resistance, durability and an excellent service life, as well as stand-up to common car park coating requirements.

Deckshield Range Technical Profile

Multi-storey car parks have always been many customers' first point of contact with commercial destinations, but it is only recently that developers have made efforts to improve the quality of the car park experience.

Although often underestimated, the correct specification of waterproofing and surfacing materials is critical within the car park environment to delivering a long-term, structurally protected and safe facility for car park operators and vehicle owners.

Flowcrete Deckshield range offers a number of colourful deck coating solutions designed to provide slip-resistance, durability and an excellent service life, as well as stand-up to common car park problems. What's more, Flowcrete's deck coating systems are compliant with the Green Building Council of Australia Green Star Design & As Built V1.2-13.1.1B, Green Star Interiors V1.2-12.1.1B and the AS 4654.1:2012 Waterproofing Membrane standard.

Deckcoat EP (0.35-1mm)

High performance, colourful, watertight car park deck coating system for car park bays and straight driveway areas.

Typically used as a hard wearing, protective, coloured floor coating in car park facilities.

Durable:

Hard wearing, durable and abrasion resistant protective coating.

Slip Resistant:

Textured aggregates provide a non slip surface underfoot.

Low Maintenance:

Seamless, hygienic finish, which requires low maintenance.

Low VOC:

Compliant with Green Star Design & As Built V1.2-13.1.1B, Green Star Interiors V1.2-12.1.1B

*The specific slip test rating (P0-P5 range) noted in this document is based on the system design, products listed, coverage rates and specific aggregate outlined in this document. This slip test rating can and will change if the standard specification details or installation methods are altered in any way. The specific slip rating (P0-P5 range) noted in this document is based on 96 Rubber slide testing on level non-inclined surfaces. Applicators should refer to methods outlined in AS4586-2013 and SA HB 198:2014.

**Assume concrete or substrate is a minimum of 25 N/mm².

***These figures are typical properties achieved in laboratory tests at 20°C and at 50% Relative Humidity.

Deckshield ED Rapide

(4mm)

Deckshield ED Rapide is a crack bridging MMA car park deck coating providing a colourful, waterproof, durable surface for exposed decks.

Typically used to cosmetically enhance and waterproof external and multi-storey car parks.

Rapid Curing:

Fast track application, can be overcoated without mechanical preparation.

Waterproof:

Complies with AS 4654.1:2012 Waterproofing Membrane standard.

Resistant:

Provides fire, slip, abrasion and chemical resistance.

Low VOC:

Compliant with Green Star Design & As Built V1.2-13.1.1B, Green Star Interiors V1.2-12.1.1B

Deckshield ID (1.5mm)

A flexible polyurethane deck coating system that transforms intermediate decks of multi-storey parking structures.

Typically used to cosmetically enhance, protect and brighten internal car parks and stadiums.

Low VOC:

Compliant with Green Star Design & As Built V1.2-13.1.1B, Green Star Interiors V1.2-12.1.1B

Reduces Noise:

Minimises unwanted noise from tyre squeal.

Attractive:

Brightens up dull, dark and musty industrial environments.

Resistant:

Hard wearing, durable, chemical and abrasion resistant.

Deckshield ID Rapide

(2.5mm)

Deckshield ID Rapide is a flexible MMA car park deck coating providing a colourful, durable and rapid curing finish.

Typically used to enhance and protect multi-storey car parks and suspended floors.

Rapid Curing:

Fast track application, dramatically reducing program time.

Low Maintenance:

Can be overcoated without mechanical preparation.
